### **1. Nature of Operations and Going Concern**

Azucar Minerals Ltd. (the “Company” or “Azucar”) was incorporated on April 10, 2015 under the laws of the Province of British Columbia. The Company’s business activity is the exploration of the El Cobre project in Veracruz, Mexico. The Company’s common shares are traded on the TSX Venture Exchange (“TSX-V”) under the symbol “AMZ”. To date, the Company has not generated significant revenues from operations and is considered to be in the exploration stage. The address of the Company’s registered and records office is Suite 1710 –1177 West Hastings Street, Vancouver, BC, Canada V6E 2L3.

The business of exploring for minerals and mine development involves a high degree of risk and there can be no assurance that any of the Company’s current or future exploration programs will result in profitable mining operations. The Company has no source of revenue.

These condensed consolidated interim financial statements were prepared on a “going concern” basis, which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. As of March 31, 2024, the Company had a working capital surplus of \$1,310,028 (December 31, 2023 – \$1,127,256). The Company does not currently hold any revenue-generating properties and therefore continues to incur losses. The Company incurred a net income for the three months ended March 31, 2024, of \$180,210 (2023 – net loss of \$19,470) and positive cash flows from operations of \$45,681 for the three months ended March 31, 2024 (2023 – negative cash flow from operations of \$70,932). As at March 31, 2024, the Company had an accumulated deficit of \$26,561,671 (December 2023 – \$26,741,881). The Company’s ability to continue as a going concern is dependent upon its ability in the future to achieve profitable operations and in the meantime, to obtain the necessary financing to repay its liabilities when they become due. Management estimates that there is sufficient working capital to sustain operations for the next twelve months. External financing will be sought to finance the operations of the Company and enable the Company to continue its efforts towards the exploration and development of its mineral properties. There can be no assurance that steps management is taking will be successful. These condensed consolidated interim financial statements do not include adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern and such adjustments could be material.

#### *(b) Basis of preparation*

These condensed consolidated interim financial statements are prepared on a going concern basis, which assumes the Company will continue its operations for a reasonable period of time. The Company’s ability to continue its operations is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future.

These condensed consolidated interim financial statements include the accounts of the Company and its subsidiaries.
